The purpose of homework:

- To provide meaningful tasks to extend and challenge learning
- To develop skills and confidence to support independent learning

Homework timetable:

- Years 7 and 8 are set one piece of English, maths and science each week. All other subjects are set in 6 week modules according to the table below. Each module of homework should take approximately 6 hours to complete (1 hour per week). Food technology and Technology should take 3 hours as they are allocated fewer lessons over the half term.
