

To Whom it may concern,

12th October 2020

Re: Epsom & Ewell High School, Ruxley Lane

Dear Resident,

We are writing to update you on our project to construct the new sports pavilion and sports pitches for Epsom & Ewell High School.

We have now completed the installation of the haul road and our site compound. The pavilion sub structure is well underway and due to be completed in the next 2 to 3 weeks, at which point the works for super-structure will commence.

Simultaneously to the above, the works to install the site drainage and new sports pitches are underway and will be continuing for the rest of the year. Over the course of the next few months deliveries to site will increase as more materials will be required to keep the works running.

We do not envisage this will cause any issue's or concerns to the local residents or community and no disruptions are anticipated to local traffic.

Please find attached a site plan showing the layout of site and proposed layout of the new pavilion and sports pitches for your reference.

If you do have any concerns either now or during the construction works, please do not hesitate to contact us:

Mark Gray, Site manager, 07799 056378, markg@oandd.co.uk

Trevor O'Brien, Managing Director, 01483 428700, trevor@oandd.co.uk

We will continue to provide progress updates to the local community to advise on the building works and progress, but do please contact us if you have any concerns.

Yours faithfully,

Trevor O'Brien
Managing Director
